

VLAZE

VITREOUS ENAMEL
COOKER SPLASHBACKS

VLAZE vitreous enamel cooker splashbacks.
A unique functional finish that is striking and tactile.

The vitreous enamel surface is created by fusing powdered glass to steel at temperatures in excess of 800°C. The result is a luxurious vibrant glaze that is heatproof, non-porous and stain resistant. The enamel is milled from pure, natural materials ensuring every product is 100% recyclable.

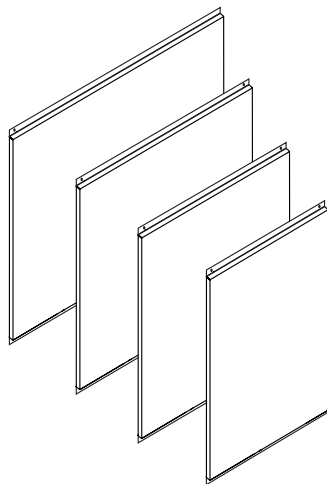

VLAZE splashbacks are British made by A.J Wells Architectural Enamel, makers of the iconic signage for the London Underground.

COOKER SPLASHBACKS

VLAZE offer a range of standard sized splashbacks to fit most kitchen cooking appliances. With deep rich colours vitreous enamel possesses ideal qualities for kitchen surfaces - durable, hygienic, easy to clean and completely heatproof.

The splashback can be installed quickly with minimal preparation and requires no grouting. The enamelled steel finish also works as a magnetic pin board and wipe-clean whiteboard. An innovative alternative to tiles that is both practical and timeless.

OPTIONS

VLAZE splashbacks are available in a choice of eleven vibrant colours: three standard colours and eight premium colours.

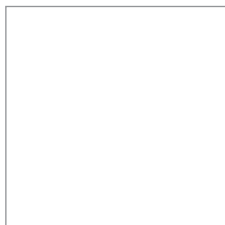

To further enhance these colours there is a choice of four optional overlay finishes.

VLAZE also offer a signature splatter finish and designer prints by leading design houses including Mini Moderns, Layla Faye and Voyage.

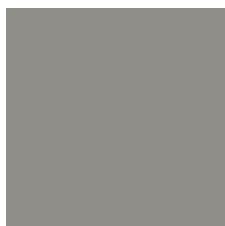

Our most popular designs are shown on the following pages but other patterns and colours are available on request.

PRICE BAND: Each colour or finish is marked with a number of V Please refer to the pricelist.
