VITREOUS ENAMEL MODULAR KITCHENS

VLAZE ADAPT is a new, innovative range of modular and free standing kitchen units that can be moved freely from indoors to outside.

Designed for outdoor living these freestanding units offer the perfect solution for food preparation and al fresco dining.

The VLAZE ADAPT is engineered from stainless steel and adorned in a vitreous enamel surface. This durable, weather proof finish is created by fusing powdered glass to steel at temperatures in excess of 800°C. The result is a luxurious vibrant glaze that is heatproof, hygienic and stain resistant.

VLAZE is British made on the Isle of Wight by the makers of the iconic signage for the London Underground and the Paris Metro.
